(ASEG NEWSLETTER)

NOTICE TO MEMBERS

The Secretariat was moved from Sydney at the end of November, 1985, and is being re-established in Adelaide. The Executive therefore wish to apologise for any inconvenience this may cause Members. The aim of the move is to make the secretarial functions of the ASEG more efficient and cost effective. In doing this the ASEG should have more funds available for promoting technical activities for Members and in particular doing more for our Student Members.

The Science Centre will remain our Registered Office in Sydney to satisfy the Companies Act and will continue to forward mail should any be delivered to the Centre.
