

# IP & EM Post-Process Softwares

**Get the most out of your dataset.**

With GDD instruments and post-process softwares, save time, money and avoid re-surveying. You can now **correct and enhance** your fullwave EM and IP data.

This year we celebrate **FOUR decades** of Innovation & Success

- ✓ Visualize your complete dataset;
- ✓ Discard noisy half-cycles from the raw files;
- ✓ Fine-tune window scheme;
- ✓ And more...

**Visit [www.gdd.ca](http://www.gdd.ca)**

## IP Post-Process Software

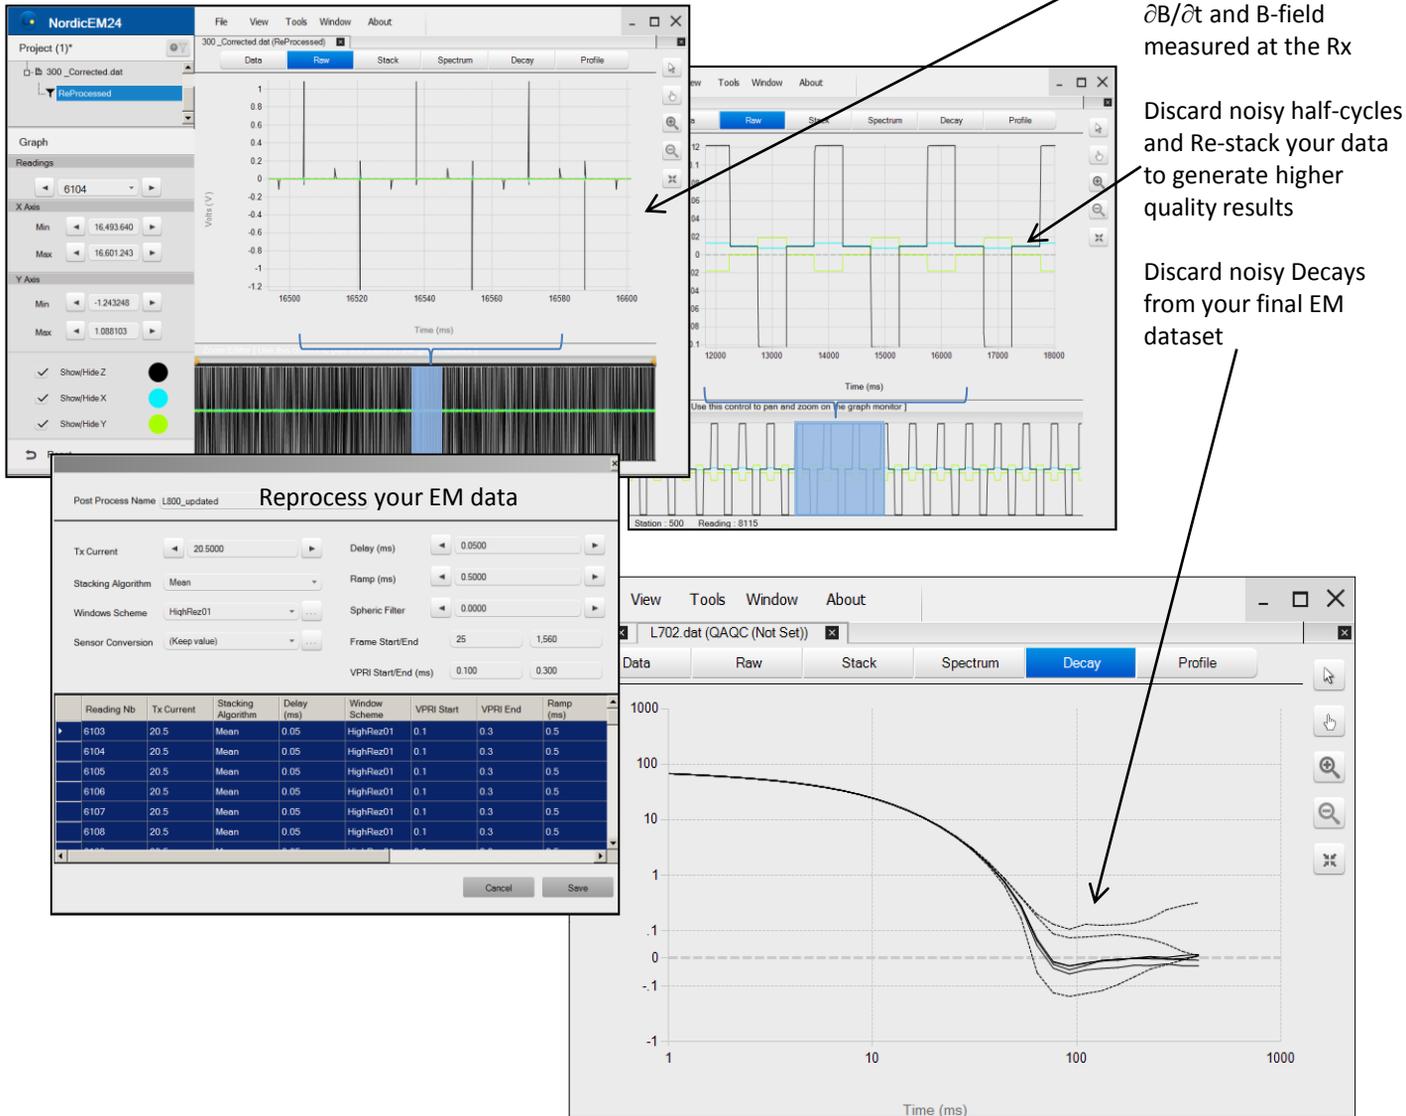

Visualize in details the Fullwave Primary Voltage "Vp" measured at the IP Rx

Improve your final results by discarding noisy half-cycles from your fullwave IP Rx database

Visualize the Fullwave current "I" measured every 1ms using GDD's new EM-IP Tx Controller

Reprocess your IP data

# EM Post-Process Software

## PURCHASE

Can be shipped anywhere in the world.

## RENTAL

Starts on the day the instrument leaves our office in Québec to the day of its return to our office. 50% of the rental fee of the last 4 months of rental can be credited towards the purchase of the rented instrument.

## WARRANTY

All instruments are covered by one-year warranty. All repair will be done free of charge at our office in Québec, Canada.

## SERVICE

If an instrument manufactured by GDD breaks down while under warranty or service contract, it will be replaced free of charge during repairs (upon request and subject to instrument availability).

## OTHER COSTS

Shipping, insurances, customs and taxes are extra if applicable.

## PAYMENT

Checks, credit cards, money transfer, etc.
