

RECORD OF TEACHING OF EXPLORATION GEOPHYSICS AT UNIVERSITY OF WA

From	To	Name	Position	Teaching	Research
mid 1960s	1989	Hugh Doyle	Lecturer/Senior Lecturer	Exploration and solid earth geophysics	Earthquake seismology
1990	present	Mike Dentith	Lecturer->Professor	Exploration and solid earth geophysics	Mineral exploration geophysics, exploration and earthquake seismology, magnetotellurics
1997	1999	Anthony Endres	Senior Lecturer	Groundwater geophysics	Groundwater geophysics
1971	present	David Lumley	Professor, also Director of the Centre for Petroleum Geoscience and CO2 Sequestration	Exploration seismology	3D and 4D seismic, passive seismic
2009	2011	Luis Gallardo	Senior Lecturer	Potential field geophysics	Inversion, near-surface geophysics
2012	present	Alan Aitken	Lecturer	Potential field geophysics, solid earth geophysics	Potential fields, tectonics
2013	present	Jeffrey Shragge	Lecturer	Exploration seismology, near-surface geophysics, computational geoscience	Exploration and earthquake seismology, near-surface geophysics, computational geosciences
